By telling the stories of the dead, Vivien not only helps others cope with their grief but also begins to understand the devastation of her own terrible loss. The surprising connection between Claire and Vivien will change the life of one of them in unexpected and extraordinary ways.

month's title:
**Alexander
Hamilton** by
Ron Chernow.

Alexander
Hamilton was an
illegitimate,
largely
self-taught
orphan from the
Caribbean who
overcame all the
odds to become George Washington's
aide-de-camp and the first Treasury
Secretary of the United States.

Few figures in American history are more controversial. In this masterful work, Chernow shows how the political and economic power of America today is the result of Hamilton's willingness to champion ideas that were often wildly disputed during his time. He charts his titanic feuds with Jefferson, Adams, Madison, Monroe and Burr; his highly public affair with Maria Reynolds; his loving marriage to his loyal wife Eliza; and the notorious duel with Aaron Burr that led to his death in July 1804.

The book was adapted into a hugely successful Broadway Musical by Lin-Manuel Miranda. *Hamilton: An American Musical* has won 11 Tony awards.

"Our Dragon
doesn't eat the girls he takes, no
matter what stories they tell
outside our valley. We hear them
sometimes, from travelers passing
through. They talk as though we
were doing human sacrifice, and
he were a real dragon. Of course
that's not true: he may be a wizard
and immortal, but he's still a man,
and our fathers would band
together and kill him if he wanted
to eat one of us every ten years.
He protects us against the Wood,
and we're grateful, but not that
grateful."
