# United States<sup>®</sup> Census 2020

## U.S. Census

Be on the lookout for information about the U.S. Census that will be sent to you by the Census Bureau in mid-March. Between March 12 and March 20, invitations to participate in the 2020 Census will start arriving in households across the country.

This invitation will include instructions on how to respond to the 2020 Census online or by phone. By April 1, most households will have received an invitation delivered either by mail or by a census taker. In areas of the country that are less likely to respond online, a paper questionnaire will be included in the initial mailing to households. Reminder mailings will be sent to households that do not respond, and in the fourth mailing every household that has not yet responded will receive a paper questionnaire.

Once households receive invitations, please respond to the 2020 Census by using the provided Census ID. If a household is unable to enter the Census ID people can still respond, by providing an address. Whether people respond online, by phone or by mail, it is important to respond right away.

**All MCPLS branches can help you submit your response to the Census questionnaire online!** We will also have more information about the Census available in the coming months.

The results of the 2020 Census will help determine how hundreds of billions of dollars in federal funding flow into communities every year for the next decade.

**Together, we can ensure that our community receives the resources it needs.**

Learn more at [2020census.gov](http://2020census.gov).
