GET READY FOR SCHOOL WITH SCHOLASTIC TEACHABLES

During the summer, kids may have very few opportunities to engage in any type of mathematical thinking. It's likely that most of the resulting loss involves procedures, not general concepts, the researchers say. An incoming fifth grader may retain the conceptual idea that division means separating things out into equal groups, but it's easy for her to forget the set of steps to solving a long division problem.

That is where Scholastic Teachables comes to help. They have thousands of printable educational materials for a wide array of subjects, including math, for grades Pre-K-8. Before schools starts, help your child get ready for the beginning of the school year with their printables so that they go back into the school year with confidence.

BACK TO SCHOOL TIPS

Early to bed, early to rise

Getting back into a school sleep schedule won't happen overnight! A few weeks before school starts, get your child into the habit of going to bed earlier. Gentle winding-down activities such as bath time and reading before bed can help your child relax.

Re-establish a routine

Establishing a consistent routine is important for kids. Write out the steps in the routine and rehearse them with your child. In the evening, this could include doing homework, playtime, brushing their teeth, having a bath, and reading before bed.

Encourage independence

Children who play an active role in preparing for back to school – such as choosing and organizing school supplies and new clothes – are more likely to get excited about going back to school, which in turn eases their jitters. Is your child old enough for chores like emptying the dishwasher or making lunches? Daily, age-appropriate tasks will help your child gain independence and confidence.

Choose the right backpack

Backpacks that are too heavy or worn improperly could result in muscle strain, headaches, and neck pain. Try to choose a backpack made of sturdy, lightweight fabric with wide, padded straps that will support your child's shoulders. Watch that they don't sling it over just one shoulder.

Talk about safety

Review outdoor safety rules – things like looking both ways before crossing the street, taking the same route every day if they are walking, familiarizing themselves with crosswalk rules, and being cautious in talking to strangers.

Establish healthy habits

Involve your children in choosing and preparing healthy lunches and snacks. Help them find physical activities they enjoy. Take them shopping for healthy snacks and lunch items they can pack themselves. Try to stick to regular meal times.

Beyond the Book Presents: When Grief Speaks—Giving Sorrow Words

Monday, August 1 | 7:00 p.m.

WVU Medicine Chaplain Jen Suehs-Vassel is our speaker this month. Grief is a universal human experience. Grief is a natural and normal response to loss. Learning to recognize and cope with grief allows us to heal from our own losses, as well as to help others heal. Allowing our grief to speak reminds us that we are not alone, and that we can find hope, even in sorrow.

This event is linked to Beyond the Book Club discussion of *Everything I Never Told You* by Celeste Ng on Monday, August 22nd at 7:00 p.m.

National Honey Bee Day!

Saturday, August 20 | 12:00 p.m.

One out of every three bites of food in the United States depends on honey bees and other pollinators. Honey Bees pollinate \$15 billion worth of crops each year, including more than 130 fruits and vegetables.

However, due to disease, parasites, poor nutrition, and other factors, the number of honey bees has declined by 30% in the last 50 years.

What can we do to save this vital part of our ecosystem? Join local bee keeper, Terri Tennant, as we explore the wonderful world of the honey bee. Learn ways in which we can help save them from extinction. We will talk about, and sample some different types of honey-the taste depends on what plants the bees have pollinated.

This program is a free event and open to the public. Registration is suggested.
