Spring has sprung! And we are welcoming back the Wise & Wonderful program to MCPLS starting this month on Friday, April 29 at 1:00 p.m. at the Marion County Public Library (Fairmont). This program is for patrons 55+.

Springtime means time to start planting our vegetable gardens for a bountiful harvest later in the year! Program participants will also receive seed packets to take home and plant!

Registration is required for this program. Please register at www.mcpls.org/events.

Celebrate National Library Week April 3 - 9, 2022!

Happy National Library Week! First sponsored in 1958, National Library Week is a national observance sponsored by the American Library Association (ALA) and libraries across the country each April.

“Connect with Your Library” spotlights libraries as places to get connected to broadband, computers, and other technology resources. It reinforces the idea that libraries are places to connect with media, programs, ideas—and, of course, books! Likewise, libraries connect communities to each other.

We encourage you to visit the library to explore and access all the services and programs. MCPLS offers a wide array of programs and resources that are available in person or from the comfort of your home. We have programs such as sewing and 3D printing, and resources such as Creativebug, hoopla, Libby, and Universal Class. We even have mobile hotspots for those who do not have internet access at home.

Libraries of all types continue to go above and beyond to keep their communities connected by expanding resources and embracing inclusion in their programming, resources and collections, MCPLS included.

Beyond the Book Club: *The Rosie Project* (Adult)

Our novel this month is *The Rosie Project* by Graeme Simsion, a bestselling book described by Entertainment Weekly as "bursting with warmth, emotional depth, and... humor." Follow along as the quirky protagonist attempts to reconcile his scientific, orderly quest with the free-wheeling

realities of love. Join us to discuss the book on Monday, April 18 at 7:00 p.m.

The art of love is never a science: Meet Don Tillman, a brilliant yet socially inept professor of genetics, who's decided it's time he found a wife. In the orderly, evidence-based manner with which Don approaches all things, he designs the Wife Project to find his perfect partner: a sixteen-page, scientifically valid survey to filter out the drinkers, the smokers, the late arrivers.

Rosie Jarman possesses all these qualities. Don easily disqualifies her as a candidate for The Wife Project (even if she is "quite intelligent for a barmaid"). But Don is intrigued by Rosie's own quest to identify her biological father. When an unlikely relationship develops as they collaborate on The Father Project, Don is forced to confront the spontaneous whirlwind that is Rosie—and the realization that, despite your best scientific efforts, you don't find love, it finds you.

Beyond the Book Presents: Autism As Portrayed in Film and Literature (Adult)

Are Forrest Gump, Dr. Sheldon Cooper, "Rain Man," and Boo Radley realistic characters? For Autism Acceptance Month we are exploring whether neurodiversity is represented accurately and respectfully in the media. Our speaker, Steve George, has worked as a mentor for autistic students at FSU, and has provided training in autism education for teachers and parents at local schools. He will help us to define autism and critically assess media images of persons on the autism spectrum on Monday, April 25 at 7:00 p.m.
